About us

WUTEH S.A. – we manufacture office furniture, we have proof that we do it exceptionally well

What sets us apart from other office furniture manufacturers? It's that our factory is driven by our clients. Thanks to them, we know our work is meaningful and makes a difference. For decades, clients have trusted us and allowed us to help create comfortable and friendly workspaces in their companies.

Tradition and experience since 1962

Since then, we have evolved and refined our processes to become a renowned manufacturer of office furniture. In its current form, as a private factory in Toruń, we have been operating since the early 1990s. Today, our office furniture shapes the design of dozens of offices, executive suites, receptions and law firms. We supply our modern furnishings to furniture showrooms, smaller stores and directly to companies. They are highly valued by both office owners and architects designing office spaces.

Our success is the result of several key factors, including an uncompromising approach to production standards, designing furniture with people and their needs in mind, and a continuous pursuit of perfection. You can benefit from our success by ordering our office furniture and helping companies create a friendly and functional workspace.
